The Dale Hollow Fish Hatchery is located below Dale Hollow Dam. Operated by the U.S. Fish and Wildlife Service, this National Fish Hatchery stocks approximately 1.5 million rainbow, brown, and lake trout annually to the waters of Tennessee. Visitors are welcome to tour the hatchery and aquarium, the hours are 7 am to 3:30 pm daily. For more information, contact Dale Hollow National Fish Hatchery, (931) 243-2443.

Tennessee and Kentucky have a reciprocal agreement so that a fishing license from either state is valid. The Dale Hollow Reciprocal Fishing Water is recognized in the Wolf River, including Illwill Creek, beginning at a line crossing the Wolf River at its mouth where it joins the Obey River.

Check with your Ranger for information about boundaries. Use extra caution when near a shoreline. The lake was purchased in the late 1930's early 1940's. In some areas boundaries included entire tracks while others just set aside a minimum. As an example, Red Oak Ridge Trail area covers multiple acres, while near Gum Grove there is very little.

### Be a Volunteer

Dale Hollow Lake offers a wide variety of volunteer opportunities in recreation and natural resource management. We are the stewards of 52.449 acres of land and water held in the public trust ... held for YOU. You can make a difference by helping to ensure the wise use of these precious resources today and their conservation for tomorrow. We need your help! Anyone can volunteer at U.S. Army Corps of Engineers facilities: Scout groups, civic organizations, local businesses, youth centers, school groups, retirees and more. All of these volunteers assist in building and maintaining our recreational facilities as well as developing natural areas where animals and plants can thrive. Volunteers under 18 years of age must have parental or legal consent. For more information about fun and rewarding opportunities as a U.S. Army Corps of Engineers Volunteer call Dale Hollow Lake at (931) 243-3136. You can also search and apply for opportunities across USACE by visiting www.volunteer.gov/s/ or by contacting the nationwide U.S. Army Corps of Engineers Volunteer Hotline at: 1-800-VOL-TEER (865-8337).

# Life Jackets Worn...Nobody Mourns!

A strong swimmer averages 10 minutes to put on a life jacket after entering the water. Wearing a life jacket buys time for you to be rescued. Many drowning victims never intended to enter the water. It takes an average of 60 seconds for an adult to drown, and just 20 seconds for a child. Water-related Fatalities: 88% Men: 84% No Life Jacket Worn; 27% Boating Falls. Regardless of how well you swim, you could have to fight for your life due to unexpected conditions such as waves, current, exhaustion or injury. Swimming abilities are likely to decrease with age, so please don't overdo it. If you won't wear a life jacket for yourself, wear it for those who love you! www.PleaseWearlt.com
